

Zipup Backup Installation Procedures

The *Zipup Backup* Manager enables you to automatically, securely and remotely PROTECT YOUR DATA!!

1. Double click on zipupbackup-setup.exe to run the installation wizard. Follow the on-screen instructions.
2. Choose “yes” to copy your encryption key.
IMPORTANT: The encryption key (files or paper copy) is needed in order to restore your files to a new or repaired computer. Keep these in a safe place away from the location of your computers.
3. Choose “New Registration” when asked.
4. Refer to the Zipup Backup Quick Start Manual (available from the Downloads page on www.midwestdatacenter.com) to create one or more backup sets.

Hint: Create the set. Put one file in it. Use “Run Now” to back up this file and then add the other files to the set.
